

Poldina Classic _Table lamp

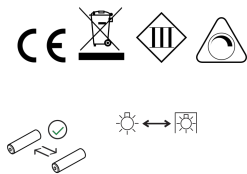

Poldina Classic is a cordless rechargeable table lamp with a pleated fabric shade and an innovative magnetic LED module that can be easily removed and recharged separately using a contact charging base. This solution makes the lamp especially practical for professional use: in restaurants or hotels, for example, the empty module can be instantly replaced with a fully charged one—no need to wait for a full recharge. The LED module—also available separately—features touch controls on the top for switching on/off, adjusting brightness, and selecting the color temperature. Poldina Classic is designed for indoor use only and includes an electronic control system that monitors battery life and optimizes charging. The rechargeable and replaceable battery offers about 10 hours of runtime at full power. Available in three finishes: white, bronze, and gold.

LED dimmable IP20

LD1230

	White	B3		Gold	O3
	Bronze	W3
